Comment text:

I agree one good local councillor is all that should be needed when I often don't get any reply to any email I've sent to my three local Green councillors who live in the St Michaels ward! I also often report online to the city council any general maintenance job such as when a nearby well used normal size public litter bin is full and when a tidy up of the local area is needed. Also when dog faeces is left on any pavement which it often is and needs to be removed and when there maybe flytipping when there can sometimes be in my local area!
