Comment text:

This is an absolutely absurd proposal. Take Everton as an example. It gets turned into "Everton North", Everton South (positioned in the East) and "Scotland Road". There are parts of Everton North which are further south than half of Everton South. Which is absolutely baffling. Kirkdale and Vauxhall also look like a complete mess of the most arbitrary boundaries I have ever seen. This is an absolute shambles and you should go back to the drawing board and come up with some sensible looking borders.
