I am extremely concerned at the proposal to split up the Tuebrook and Stoneycroft ward. This area is very fortunate to have 3 excellent and active counsellors who visibly do a lot of work to look after this area and all its residents. To split up this area would make no sense and would leave people potentially more vulnerable and less supported. It also makes no sense due to the shared facilities and community spaces around here. Please refrain from breaking apart a very well functioning system as it currently is.
