Aintree - rename as Aintree itself is in Sefton not Liverpool. Just call it Brookfield if in doubt. I know there's the hospital and industrial estate but this isn't truly Aintree. Remove "country" from Croxteth Country Park as the estate is already known as "Croxteth Park" Melrose somehow manages to not include Melrose Road which I guess is the inspiration for the name? Dovecot North is not Dovecot. Better keeping this as Yew Tree or call it Mab Lane. Dovecot is centred around Dovecot Parade on East Prescott Road so calling this area Dovecot North will alienate people in the Mab Lane area. Lodge Lane is a key district centre but has yet again become a boundary line for other wards. Can we not have a Lodge Lane ward instead? It's already a focal point for Sustrans doing work in the area. Presently, due to Lodge Lane being on the boundary of multiple wards, no one wants to take responsibility over it which has potentially contributed to its decline. Having it placed centrally in one ward would help turn things around. The same could be said for Rice Lane which is now the boundary for Walton Vale and Walton Hall and Breck Road being split between two Everton wards. People rely on these main thoroughfares and identify with them... the wards should do the same thing and not split them down the middle. This really won't work.
