The Tuebrook & Stoneycroft Ward is currently served by 3 Councillors, one of whom has served for over 30 years. Over the years, new incumbents have benefitted from the long term councillor's breadth of knowledge and experience, and the residents of the ward have benefitted hugely from the commitment given to the community. Dividing the ward as it stands into 3 separate wards would deprive residents of a successful working relationship, which provides for cover if one councillor is absent for any reason. Those of us currently benefitting from the work our councillors undertake, and the commitment to the community that they demonstrate at all times are, in my experience, the envy of those residing in other wards where the regular cry is that "we never see/hear from our councillors - couldn't tell you who they are". These proposed boundary changes will be to the detriment of the people of Tuebrook and Stoneycroft. We are used to having councillors who are visible, knowledgeable, generous with their time and who work well together. Please do not take that away from us.
