### Comment text:

I want to say how disappointed I am, as a resident of this area for over three decades that you have decided to split the Woolton and Gateacre areas in two. They are both very much the same area. We use the same shops and amenities. Both communities have stood together since before I was born. I note the comments from the Woolton councillors, which, in my opinion, shows a real lack of understanding of the area. Woolton and Gateacre are interchangeable. They have existed together for as long as I can remember. We all live in Woolton! Yes, there are small little villages, but we all live in one area of Woolton L25! I would like you to please merge the proposed Woolton Park and Gateacre wards back together as one. Call it Woolton and Gateacre if you have to!
