Comment text:

Please reconsider the name Toxteth. Wards across Liverpool are shedding their old historic negative identities. As the most diverse ward in the city with a long standing negative and positive history it is time to change the external stigma associated with the name Toxteth. If the ward is split into Princes park and another ward then the name should be something reflective of the direction the city/ward wants to go in. Not Toxteth ward. Why should people in L8 still put up with the stigma of the name Toxteth? This ward is also one of the most deprived wards in the city with a diversity of needs therefore it would benefit from being a 2 member ward as opposed to a one member ward.
