Organisation Name:

Comment text:

As a Coldean resident (and having been asked to consider being a council representative in my area) I wish to say on behalf of my local neighbours (many of whom are elderly and not online or aware of this consultation) that it's insulting that the Coldean name has been left off of the new proposed name for our ward. Especially as Coldean is growing with the new developments (and even more after that I hear). Stanmer feels like a world away from us (despite being just the other side of the woodland) - it's all very beautiful, elite and expensive in there - whereas we're the working class periphery of Brighton and deserve not to be ignored in the naming of our area. It really feels like Coldean is continually ignored by our council, in favour of our wealthier neighbouring areas. Please correct this by revising the name to Coldean & Stanmer. Thank you.
