Subject: Ward boundaries

Categories: Submissions, [REDACTED]

Hello

I live in East Brighton, not on the housing estate there. It seems that people don't want their home address to be associated with this estate. The proposed new ward boundaries remove more of the 'privately owned' roads from the East Brighton ward.

I think this wrong. Wards should include a mix of housing type so there is a social mix, with no ward capable of being defined or disparaged through perception of the people living in them.

In fact I think East Brighton ward should go down to the sea and include people currently sheltering in 'Rottingdean and Coastal'. This ward includes Sussex Sq, whose residents successfully fought not to be included in East Brighton for reasons of social snobbery.

Please bear social mix in mind when drawing lines upon maps!

Many thanks
