To the Review Officer ( Brighton and Hove ), I fully support the proposal for a new pattern of wards for Brighton and Hove City Council.

It is important that each councillor should have a similar number of electors , but also the character , history , individuality , and community interests of each area should be retained and recognised within those boundaries. Each boundary should have a good infrastructure within it to serve the residents such as a medical centre , dentists, places of worship, shops , community halls and good communication and transport links .

My own boundary of Hangleton remains the much the same , and reflects the diversity and multi cultural population of the area . It has an excellent shopping area , selling local produce and frequent bus services to the town centre.

The merger of the Brunswick and Adelaide wards would certainly reflect their Regency architectural heritage.

I'm sure the recommendations will assist the council in efficient, effective and resourceful local government .

Yours faithfully
