Consultation submission

Sorry I missed a bit off my submission. Here is what it should say

"Hangleton Community Centre provides a vital service to its local community, enabling residents to access key services and take part in Activities that promote health and well-being. Our community centre allows people to create friendships and reduces isolation whilst providing a safe meeting place for everyone. We serve people of a Hangleton & Knoll communities predominantly and therefore support the boundary commission's proposal for a Hangleton and Knoll ward"

Many thanks
