Comment text:

Generally, I support the further draft recommendations for the five wards listed in the northern and central areas of Brighton and Hove City Council - being the boundaries shown in purple on the consultation's interactive maps and described as the "further draft recommendations" in the Local Government Boundary Commission for England's report of 5 July 2022. I recognise our local communities in the wards presented by the further draft recommendations (ie, the five wards of Hove Park, Hollingbury & Carden, Westdene & Patcham, Hollingdean & Fiveways and Preston Park), which I did not with the previous draft proposals. In my view, the further draft recommendations should become the final recommendations of the LGBCE for the wards of Hove Park, Hollingbury & Carden, Westdene & Patcham and Preston Park, adjusting only for the observation of the Brighton / Hove town boundary in its entirety between Preston Park and Hove Park wards. For the Hollingdean & Fiveways ward, I urge the Commissioners to respect long-established community links between Saunders Park estate and Hollingdean, by including the streets around Saunders Park within the Hollingdean & Fiveways ward before finalising their recommendations. As it exceeds the 10,000 character limit, my full response is uploaded in a pdf file. Therein, I detail the specific disagreements noted above, suggest alternative proposals and respond to points raised by the LGBCE's July report. At section D of my response, I propose an amended boundary within polling district PHSD. At sections C and E, I propose a small reciprocal boundary adjustment. My thanks to the Commissioners and all staff at the LGBCE for the work undertaken to develop these much improved further draft recommendations. Best wishes, [REDACTED]
