### Comment text:

To the Boundary Commissioners I am writing to make a submission objecting to the proposal to change the boundary of Patcham, Hollingbury and Westdene. Patcham is a well-established and historic community, recorded in the Domesday Book. Many parts of Patcham would be excluded from what would be Patcham Ward in proposal 2, and therefore, to split Patcham up, joining it with Westdene, would be to split up the local community. Proposal 1. Patcham & Hollingbury as one Ward is one community, sharing the same services, community groups and shops as well as local issues and should therefore be represented together at the council in a single ward, not split. This provides for more effective and representation for residents.
