Comment text:

Where has been the consultation on this for areas affected? I live in Patcham and nothing has been communicated directly. Patcham has been my home for over 50 years. My parents, my grandparents and great grandparents have too. Patcham was built around ladies mile and patcham village and to change this now is outrageous and can only assume the council has an ulterior motive? If I wanted to live in carden or hollingbury, I would have bought a house there. I strongly oppose this.
