Comment text:

I support proposal 1 for the following reasons: Patcham should not be split between two wards, as it would divide a well-established & historic community. The boundary between Patcham & Hollingbury in Proposal 2 is incorrectly drawn. It is well established & well known that Carden Ave is the boundary between Patcham & Hollingbury. Patcham & Hollingbury is one community. It should never be split up and will cause anger and ill feeling from the residents. The Labour Councillors don't even believe in democracy as they never said anything about this stupid idea. So no proposal 2 must never go ahead or there will be real campaign for dissent. Residents have strong feelings over this.
