Submission from [REDACTED]: We comment below on the two options for Hove Park put to residents by the Commission in this ward boundary review. Our preference, as long standing residents of Tongdean Avenue, is for a combined Hove Park-Westdene ward, with representation from three councillors. We are on the edge of the Tongdean Conservation area, which is of significance to residents in the neighbourhood. This conservation area extends across and along Dyke Road Avenue and thus would be able to be fully contained within a Hove Park & Westdene ward, which would be useful for council planning matters: Instead of having to deal with ward councillors from two separate wards, residents would only have to deal with one set of local councillors when planning issues come up relating to Tongdean, which would be more efficient all round. I therefore ask that you establish a Hove Park & Westdene ward, for the planning and heritage benefits that would come from this arrangement. Regards, [REDACTED] Tongdean Avenue. [REDACTED].
