Comment text:

What a waste of tax payers money. We all know this is part of the greater plan to access building land and rights, plus push again for the merger of Guildford and Waverley Councils. The Boundaries were fine it is Catchment areas you need to re think so as people do not have to depend on their cars to get children safely to school, especially in this petrol availability crisis. This is all a big spend for nothing, your just going through the motion of discussion to satisfy the laws tick boxes. You have already made your minds up and nothing anyone says on here will change your plan
