I am opposed to the proposed merging of Lady Bay ward with Trent Bridge to make one of the largest ,yet most compact wards in Rushcliffe. The very strong community spirit and sense of belonging in Lady Bay cannot be ignored, the mutual help and support offered daily by members of the community are exceptional . I believe this spirit is borne from a clear sense of belonging, of trust, compassion and working together to improve the area in which we live. The geography of The Bay lends itself to this tight knit community feel and I feel it will be lost once it becomes 'Trent Bridge' (what sort of community feel does that convey?) if the ward needs increasing to be sustainable ,my view would be to include land between Adbolton Lane and the river, to include Adbolton village, the water sports centre and end at Radcliffe Ward. This would provide opportunity to rework wards to the south of the area to remove Lutterall, balance Abbey, Musters, Edwalton and Gamston better, and include the remaining parts of 'Trent Bridge' around the musters road area right up to the boundary withi Abbey and Musters . I think you could be much smarter. Retain existing communities, strengthen others and reduce councillors by 1 or even 2.
