Comment text:

I would like to oppose the ward changes covering Southam, Long Itchington and Stockton. It makes no sense at all to split Southam into area with local villages. As a resident of Long Itchington I would like to remind you we are a village, the same as Stockton and we have very different needs to a town such as Southam. I can't see at all any logical reason why this proposal should go ahead. The Ward proposals go against all guidance that The Boundary Commission give for Wards. It makes a lot more sense to retain the existing Long Itchington and Stockton Ward and Southam having a three Councillor multi-member Ward as it was before 2015 to ensure that Councillors can truly represent their communities.
