Comment text:

What on earth are you doing to the wards covering Southam, Long Itchington and Stockton. Putting part of Southam North with Long Itchington and part of Southam with Stockton is plain stupid. Long Itchington and Stockton have very different needs and identities from Southam. I believe this ward proposals go against all guidance that The Boundary Commission give for Wards. In my view a far more sensible option is to retain the existing Long Itchington and Stockton Ward and Southam having a three Councillor multi-member Ward as it was before 2015 to ensure that Councillors can truly represent their communities.
