### Comment text:

In my view, as you can see from the map below, I think putting part of Southam North with Long Itchington and part of Southam will not work. Long Itchington and Stockton have very different needs and identities from Southam. The Ward proposals go against all guidance that The Boundary Commission give for Wards. It is important for residents of Southam, Long Itchington and Stockton to have proper representation. In my view a far more sensible option is to retain the existing Long Itchington and Stockton Ward and Southam having a three Councillor multi-member Ward as it was before 2015 to ensure that Councillors can truly represent their communities.
