Comment text:

Preston Bagot and Langley have closer social ties to Claverdon than Wootton Wawen. Could they be included in Claverdon and Snitterfield eased south east to form a northern band around Wellesbourne as the Wellesbourne north and rural looks too large and either needs to be bigger with two ward members or rejigged. Given the emergence of unitary authority wards contiguous with the county divisions might be better. This would make administration much simpler. Ullenhall has closer social links to Henley in Arden than Wotton Wawen.
