Comment text:

In relation to Alfold, Cranleigh Rural and Ellens Green, this ward covers 3 parish councils so 3 times the number of parish meetings of a one parish ward. The distances between the areas can take 15 minutes to drive, certainly not walking distance and to get to Ellens Green, I have to travel through Sussex and back into Surrey. If the ward is made any bigger, this will make it very difficult to manage. Also there are over 250 new additional houses to be built room the last couple of years with many more in the pipeline. This will add at least 600 new residents and may take the number of residents over the average number per ward.
