Regarding the Ward change I must say I feel Peopleton is much more suited to the Ward of Upton Snodsbury as it is a much similar village with like minded villagers in a rural setting. Same for White ladies too, My children went to Upton Snodsbury and in their early years we were involved in the baby and toddler group there. Drakes Broughton is a totally different village, very urban and extremely large and getting much bigger. My mother still lives there and I too did for a few years when I returned from university. It does not have the community spirit that Peopleton has and is more like a mini town. Peopleton and Drakes Broughton are just poles apart. I think Peopleton's needs would be overlooked and there would be little attention given to the smaller rural village concerns. Kind regards [REDACTED]
