I'm the Shropshire Councillor for the Much Wenlock Division. I've worked hard to serve the people of Broseley Wood but I have to admit it is very confusing for residents who are represented by Broseley Town Council but by me as Ward Cllr, I have worked hard to attend Broseley Town Council meetings and Advice Surgeries but the confusion still remains. Ultimately the biggest issue is that it means that the Town Council has to be warded; East, West and Broseley Wood, this causes a right mess come election time when East has a contested election and the West and Broseley Wood have vacancies for Councillors. Similarly, it was confusing for Shropshire Council officers, when Broseley was doing it's neighbourhood plan, I nearly got denied the opportunity to speak at cabinet and I'm constantly not listed as a Ward Cllr on the documentation. If identity is more important than numbers then the boundary needs to be looked at, a better boundary would be Bridge Road. What ever happens, I will continue to serve the community of Broseley Wood to the best of my ability.
