Hi, I think there should be one councillor that covers the whole of blyth instead of separate areas. I live on Plessey Road and have contact Councillor Reid before regarding getting traffic calming on the road. It was a waste of time and he was disinterested in my concerns about boy racers, road safety and the amount of cars using this road and not sticking to the limit. If one councillor looked after blyth then a holistic view and action plan could be implemented across the board. The councillor for south blyth is active on Facebook and in my eyes doing a great job of communicating. My councillor does not make the effort and in my opinion, does not do alot. I am unclear why 67 councillors are required and would suggest a different reform. There is no consistency across Northumberland and many things overlooked such as the dual carriageway on the A1. We need to have better public transport and investment in the area.
