Comment text:

We feel that the Cleobury Mortimer Division should remain as it is with two councillors to represent the market town and rural hinterland. We do not want to be separated from Cleobury Mortimer and feel better represented by having two councillors rather than one who would be spread very thinly around the rural parishes. We certainly do not feel that parishes should be split up but each parish should decide who they wish to be aligned with. The Cleobury Mortimer Division works well as a team with the market town and rural hinterland.
