Organisation Name:

Comment text:

New Denham has existed since domesday and associated with Denham. Our nearest facilities being Denham itself and Uxbridge. To place this area under Iver is totally inconsiderate, let the people vote! It's all too easy for those to sit with their pens and say let's team this bit up with that. The effect it would have on individuals would be devastating. Schools, disabled, doctors, dentist etc., the locality of social and welfare of the elderly, especially upon walking when it gets dark early, the distance from Willowbank to Denham itself to Iver Village. Myself, being elderly can walk to the local facilities but not to Iver village some 4 miles away! There is no direct walk and transport would be required, also no direct route. Instead of putting Councillor's first let's put the people first. Living on Willowbank since 1973 see how a Councillor would get to Iver Village without. Car? Then perhaps those responsible for their participated change over would retract. All looks good on paper but practically, no!
