Comment text:

The proposed ward boundary between Highbury and Bearton wards would be more logical along Walsworth Road as far as the station. The kink in the old boundary which has been enlarged to include bits of Benslow makes it even messier than it is already. There is considerably community attachment between the residents of Benslow Rise and Benslow Lane, and with The Avenue and Chlittern Road. Benslow Music Trust and Pinehill Field are common meeting places for the area for various activities. Back before Child Protection became an issue, I used to run a babysitting group which encompassed the entire area mentioned, and residents who still around in the area keep in touch. I have to say that I have found this consultation bit of the website not at all easy to navigate, and I'm not even sure that my comments will find their way to the right person.
