### Comment text:

I have been advised of the Boundary Commission proposed ward changes by our Local District Councillor I agree entirely with North Herts District Council proposals. It is quite inappropriate to join rural wards with that of Baldock East including the new proposed expansion. The ward suggested by the Boundary Commission would be far too large to manage and with different requirements of rural and urban communities. District Councillors need to be focussed on the specific rural or urban requirements not both. The current wards need to remain as they are and to allocate an extra councillor to deal with urban issues to serve Baldock East incorporating the new Baldock expansion.
