Organisation Name:

Comment text:

I am a long time resident of Southborough and High Brooms - a place that is apart from and distinctive to Tunbridge Wells. It has a proud history and identity and most residents like and appreciate this. It is because of this and the reasons given in the submission made by Southborough Town Council that I oppose the creation of Borough Council Wards that include parts of Tunbridge Wells and Speldhurst and Bidborough. Our existing councillors are our voice on the Borough and that is something else that adds to our community cohesion. I fully support the STC proposal to create 2 modified wards to be known as Southborough North and Southborough and High Brooms - each represented by 2 councillors. And that these wards should be wholly within the existing Town Council boundary.
