The suggestion that Whitley Bay should have two seats is a good one, the area has always felt far too big for just one. Similarly including the southern seat with Cullercoats makes complete sense as around John St the boundaries between Whitley and Cullercoats seem to be very unclear, moving these areas into a ward with both names is sensible. I also think the inclusion of the estate by Morrisons at Whitley Bay makes sense as it allows Whitley Bay ice rink to be in the ward, this is a very iconic venue historically with lots of people playing concerts here, this is important to Whitley bays heritage. Also the metro line between Whitley Bay North and Monkseaton seems sensible with Whitley High now in a Whitley Bay ward rather than monkseaton.
