Comment text:

We are a not for profit social enterprise covering the whole of the West Northants area. Since the inception of WNC we have continued to interface with the 93 Councillors regarding transport issues. With the reduction in the amount of Councillors we may be able to support them in the individual wards. Whilst we also attend the 165 parish Councils we have not been able to coordinate who is covering which ward / parish. We support this change overall and particularly the creation of the single and two member wards.
