Comment text:

Gateshead Council has to many councilors, the leader of the council never takes responsibility for anything and always blames others. Get rid of the present council and the people can vote a new council in, that might actually do something for the area. Also you need to have a look at what is deemed 'official ' when it comes to the mayor visits, because sitting at a birthday meal on lowfell with the official chains and robes on, while the driver is also on duty and being paid by the tax payers isn't a good way to use funds
