**Related subject:** Cutting the number of councillors

Gateshead Council has a disproportionate number of councillors to the need of the Borough. Many many services have been cut and to be honest we don't need 66 to do the job. It's an old boys club and they are only doing the job to get paid with no interest in serving the local community many of them. Money is always cut from the wrong services so it's about time the money is saved by getting rid of surplus councillors!
