Comment text:

Apart from Martin Ganton I couldn't tell you and a single Labour Gateshead Councillor , we pay the highest rates of any metropolitan Borough in the country and get very little for it, we have lost so many services, streets are full of rubbish , bins are removed and the ones there are overflowing,pot holes are everywhere, swimming baths and health centres to close when we are told to exercise a d stay healthy but the only consistency in Gateshead is the ridiculous number of councillors (66) for a relatively small Borough and cutting this will save money but the labour run council will not cut this ridiculous no down
