Related subject: Elsdon - Rothbury.

Dear Team,

I live in Elsdon it's my home, all my main services come from Rothbury... Drs, Chemist, Physio, NHS Dentist, Small hospital which we had to fight to get back, main shopping. The village (Elsdon) is supported mainly by locals from around Rothbury during our local fairs, bonfires night which is a major event, church and community activities and events all mainly supported from Elsdon and Rothbury areas.

Moving us out just for numbers is very weak especially as increasing numbers in Elsdon is limited as we are National Parks and Bellingham area / district has massive population growth potential to then counter any number disadvantage at this moment, to the point we're Elsdon could then bounce back into Rothbury, As our main services are Rothbury which we have always supported and fought for, we would no longer have our say or the same direct access as at this time.

I therefore strongly support remaining within Rothbury and not moving out of this alignment.

Regards

[REDACTED]

Eldon resident.
