**Related subject:** New Hartley Ward

I wish to object most strongly with regard to the proposed boundry changes within my village of New Hartley which is at present in Hartley Ward

If this proposed boundry change goes ahead this will effectively split our village in two with a third of the village being moved into a new ward called New Delaval and New Hartley.

We have no conection with this new ward (New Delaval and New Hartley) that the boundry change is proposing to move part of New Hartley into, there are no direct road link or any public transport link with this proposed new ward.

All our links culturally and historically are with Seaton Sluice and Seaton Deleval. Our road and transport links are connected to Seaton Sluice (Hartley Ward) therefore I cannot see any rational reason to move part of the village into a completley different ward.

We are a small village with many organisations and activities for all ages, we also have a thriving First School and a very strong sense of community, New Hartley has very strong connections to the rest of Hartley Ward and and I feel that these boundary changes do not reflect the opinions of the residents who want the WHOLE village to rremain part of Hartley Ward and not split the village into two wards
