Comment text:

I live just off beach road in tynemouth but I have always been in the cullercoats ward this has never made much sense to me as I have always thought I live in tynemouth. The new ward tynemouth includes my area which I think makes a lot of sense especially as the style of housing and issues around us are the same Tynemouth and cullercoats are very different and they should have there own wards the same as north shields and tynemouth. I think north shields ward also makes sense my family live in prestn and they say the area is very distinct so I think it should be separate to north shields. I like that the north shields ward has the fish quay and the marina because they are both big parts of the towns heritage I am very supportive of the changes around me.
