## Comment text:

**Related subject:** Applicable to all but live in Todmorden

We do not need more councillors, they are not value for money and vote themselves pay rises while hiking up council tax. The number should be reduced to about 20 and it should be voluntary and that means not paid - the amount of money wasted on these vain and unnecessary individuals is a disgrace. Abolish all allowances and use the money for things that matter. This would make the council something that people did because they care, not to line their own pockets
