## Comment text:

Dear Local Boundary Commissioners

I have resorted to sending a separate mail concerning my thoughts on the new proposed local electoral boundaries for Kettering as I seem unable to access the link provided.

The new proposals seem to have contracted Brambleside Ward taking its southern boundary to Blandford Avenue. In so doing the Kettering Central Ward seems now to extend north taking in all the Avenues and Streets and also the Rockingham Road Park area which has traditionally been recognised as All Saints and in more recent years Clover Hill. The streets, and so the residents in the current Clover Hill area, definitely identify far more with Brambleside than with Central Kettering with Wood Street and Park Road School always being part of this area too. My proposal would be that the southern boundary for Brambleside be extended to take in all streets and roads extending from and including Wood Street to Blandford Avenue maintaining Rockingham Road as the boundary to the west and Bath Road to the east.

There is no way that any of us currently in the Clover Hill Ward would associate ourselves or identify with Central Kettering and the Town Centre. We should also retain the current number of Councillors allocated to our existing areas.

Sincerely

[REDACTED]
