Related subject: All saints ward change

I feel the proposal to join all saints ward with Kettering town centre is not in the best interests of the constituents in our area. To merge with a dense population area such as the town centre does not make sense to me as surely the needs would be greater and workload more for the councillor concerned, particularly given that there is going to be a reduction in the amount of councillors covering the areas. I feel it would be more in keeping with the area and residents to merge with brambleside if a merge is required.
