Related subject: Proposed Column & Sutton Division

The redrawn boundary of this division make good sense. However, it is the case that already the Lords Hill Column does not form part of what is currently defined as Column. The new boundaries disconnect the area with the Column and should no longer therefore carry this name. In addition, Sutton is a far wider area than will be included in this division - most of Sutton will form part of the proposed Oteley & Reabrook division but not all of it. I therefore suggest both divisions should be named differently to the proposal: Wenlock and Sutton Park is more appropriate (accurate, descriptive) than Column & Sutton, and Oteley, Sutton Farm & Reabrook is more accurate and descriptive than Oteley & Reabrook.
