Proposed new "Burnell and Bayston Hill" division.

I am objecting to the above proposed division.

This potentially is a very large combined division in which the unique identity of Bayston Hill as a large urban village, will be diluted to its detriment. Bayston Hill needs its own standalone division to properly represent both this important, cohesive character also its inhabitants' interests: these collectively would be marginalised in a diffuse, rurally-oriented unit. Bayston Hill is markedly different from the other constituent communities in the proposed division.

Therefore Bayston Hill needs to resume its original independent status.

Yours sincerely,

[REDACTED]
