Related subject: Claverley and Worfield

We support the proposed boundary for the combined Claverley and Worfield electoral division for the following reasons:

1. The parish boundary of Worfield and Rudge Parish Council remains the same.
2. Both areas are essentially rural in character and form part of the West Midlands Green Belt – the combination of areas supports a natural boundary.
3. Whilst we visit the town of Bridgnorth we do not feel part of the town; we also recall that Bridgnorth Town Council voted (unsuccessfully as it happened) for mass development in our area totally against the wishes of residents. We would oppose any move to include any part of the existing Worfield and Rudge parish within the Bridgnorth division.
