Comment text:

Related subject: Bowling & Barkerend.

I don't understand how these areas are grouped together.

They are nowhere near each other, have totally different postcodes and demographics. Then to group BD4 8 in the same group just flummoxes me.

That postcode is neither bowling or barkerend.

It's more aligned to Laisterdyke and Dudley Hill which has a similar demographic.

Should Barkerend not be coupled with Bradford moor or pollard park or thornbury?

Should bowling cover east and west bowling seen as they share the same name.

Laisterdyke, Sutton, fenby and Dudley hill grouped together?

The boundaries make no sense whatsoever.
