I support the views of the 2 local MPs for Shipley and Ilkley who propose the breakaway of their constituencies to form an entity separate from Bradford council. I do not do this on political grounds. The council is too remote from us; it uses us as a milch cow to support its central Bradford schemes; it forces extensive housing schemes on Wharfedale which create revenue for the council but no benefit to us. No proper infrastructure has been planned; there is no extra schooling; another extra mini roundabout on the main road is not a plan. We pay more council tax than most but are just milked and not listened to. We are drifting apart. Let us make that fixed and permanent
