Related subject: Menston

I have lived in Menston for almost 45 years and am fed up of seeing second rate service from Bradford council while resources are continuously poured into the city centre. Three new pieces of equipment and a lick of paint is what our park is worth. Overbuilt to the point of congestion. It is a good job we have an active parish council because nobody else is bothered.
How has the city centre improved? It doesn't feel safe and has nothing to offer. All that money wasted.
Please take Menston out of the control of Bradford council.
