Related subject: Boundary Changes to Wards

I strongly believe that the Shipley constituency should no longer be within Bradford Council. I believe the residents of the Shipley constituency would be better served by splitting the current single local authority area to form a new authority, separate from Bradford. The Shipley area has different needs and priorities to the city itself and different funding requirements which are not addressed by the current authority's focus on the city wards. It's time to break away from Bradford Council for better representation.
