Related subject: Baildon

I feel Baildon and other areas like Bingley shipley Burley and Ilkley are badly represented by Bradford Council because it is so dominated by left-wing Labour councillors. Our rates are high and very little consideration is given to our area as vanity projects in the centre of Bradford take precedence .The quicker we can leave the control of Bradford Council the better ! Our three Baildon Conservative counsellors are continually overruled when they try to put Baildon to the forefront with their requests. Bradford Council is very badly run and in a bad way financially and it is all due to incompetence and left-wing socialist dogma. I am sick of it. I have lived in Baildon all my life and it used to be a lovely local council Baildon urban district Council. I am also totally against the travel restrictions through Bradford for people working in small businesses such as vehicle repair garages and plumbers electricians et cetera you are impeding peoples right to make a living this is a moneymaking scheme to boost the coffers of Bradford Council which is in such a bad state due to incompetence and secrecy
